REPORT OF THE AUDITOR

This is to certify that the accounts and records of all officials of the Town of Langdon charged with the custody, receipt, and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls, as well as the entries in the book of records. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. All records are correct to the best of my knowledge.

REPORT OF THE LANGDON FIRE DEPARTMENT 1954

The main thing I have to report in regard to the Fire Department in 1954 is that I wish we had more men who would turn out for fire drills.

In 1954 we had three chimney fires, 2 grass fires, one car fire, one serious farm loss, one maintenance drill, and 14 regular drills at 13 locations. At these drills certain men were outstanding in their regular attendance. Fred Hatch leads the list followed closely by Ben Porter. Bill Kemp, Royal Holmes, Dick Miller of Drewsville. Al Challoux and Joe Johnson.

The Kempton fire was a serious loss. At two fire drills held there previously, it was thought to have been established beyond doubt that our small forest fire pump was the only pump possible to use at that water supply. The pump proved wholly inadequate; and at the risk of wrecking the equipment the jeep truck was set in. If more trained personnel had been available to make the hose shift faster, 10 minutes, or a decisive period might have been gained. But the fury and speed with which this fire spread, it might not have been enough to do any good. Following this fire, the Selectmen bought us a Pacific Marine Pump with an air cooled Wisconsin engine. This is a mighty good investment for the Town.

I wish to point out that your firemen serve without charge, even at fires, and that we heartily wish there were a few more men who would be willing to drill with them. These men are mixed up in other activities, as is the nature of busy men; and it is quite possible that a fire might strike when some of them are out of Town. Constant practice is the only way that efficient service can be made reasonably certain when a fire occurs in a rural community. Too many things can go wrong with an undrilled outfit, or any outfit for that matter. A once-over is not enough. Each water supply should be visited and actually used to smooth out the procedure. To look at it means very little.

The Keene Mutual Aid set-up is now a going concern. Alstead and Walpole now belong to this group.

We take pride in reporting that 3 new water holes have been added this year and another one improved. One that we had not known about was brought to our attention. This sort of installation is a splendid insurance. Improvement of approaches to water holes is an important detail of this business. Two or three loads of gravel might save a building.

FOREST FIRE REPORT

Another year has gone by with only a very small item for Forest Fire expense. There were two small grass fires; but neither was chargeable to public funds. The only expense was for routine training and twenty dollars for shovels and lights. It was, of course, not a dangerous fire year; but even so, such a record could not be achieved without nearly 100% public support. In this connection it cannot be too strongly emphasized that permits for any sort of outdoor fire must be obtained from the Fire Warden, except when the ground is covered with snow. This does not release the landowner from responsibility if the fire gets away; but it does give the warden an idea of the situation when a smoke is reported; and a chance to protect the landowner from expense if the conditions are dangerous.

Three of your local forest fire force are District Special Deputies. This is a good record for a small town, there being only 12 Special Deputies in the District.

At the risk of saying the same thing too many times, I wish to point out in no uncertain terms that a large fire, like one that could occur on Fall Mountain in a dry year, is a staggering expense. It could raise taxes a lot and involve expenditures in the thousands of dollars. The Success, Ossipee, and Grantham fires were in the \$100,000 class. The tax payer's vigilance and cooperation has gone a long way toward preventing this sort of thing in our town; but we cannot afford to relax. Accidents, like lightning strikes, can always happen.

EVA R. SMITH, Treasurer

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Langdon, I herewith submit my third annual report as Superintendent of Schools.

Mrs. Margaret Finley was hired to replace Mr. Francis Usher who is now teaching in Putney, Vermont. Mrs. Finley, a graduate of Plymouth Teachers College, had one year of teaching experience. It was necessary to find a replacement for Mr. Finley as of January 3rd. Miss Mildred Stearns of Charlestown, who has had many years of teaching experience, was employed to complete the year.

Due to the enrollment, it was necessary to transfer some of the third grade into the intermediate room thus giving this teacher four grades with twenty-eight pupils. There are twenty-nine pupils in the primary room. The predicted enrollment for 1955-56 indicates that it will still be necessary to split the third grade again and each teacher will have approximately thirty pupils.

Miss Florence MacIver, school nurse, carries on a health program and she not only informs parents of the need for medical and mental treatment, but also prevents the spread of communicable diseases by isolating and promptly reporting those pupils who may be exposed.

Miss Duncan is again acting as principal and teaching very effectively. I wish to express my appreciation to Mrs. Pauline Durling and Mrs. Leon Newton for substituting when teachers have been absent due to illness. Their willingness to honor a request on short notice is most appreciated by the school board and pupils.

The increase in the budget is due to salary increases and tuition costs.

I wish to express my appreciation to the school board members for their cooperation and guidance, and to the citizens for their support of education.

The possibility of financial assistance in the form of general aid, flat grant, building aid and transportation costs from the state level would do much to relieve the real estate tax burden in Langdon.

Respectfully submitted,

RALPH H. MEACHAM, Superintendent

SCHOOL NURSE'S REPORT

In 1833 a law was passed in France requiring school committees of towns and cities to keep school houses clean. From this very simple but necessary beginning, stem our present day school health services.

What are school health services?

School health services are procedures established: (a) to appraise the health status of pupils; (b) to advise pupils, parents and others of the appraisal findings; (c) to encourage correction of remediable defects; (d) to assist in the identification and education of handicapped children; (e) to help prevent and control disease; (f) to provide necessary emergency service for injury or sudden illness.

Our modern school deals with the physical, mental, emotional and social development of each pupil. Gone is the day when the school was primarily concerned with the facts a child memorized. The desire now is health, happiness and foundation for a useful life.

Certain health services help parents and school personnel to become acquainted with the health problems of children, and provide a means of helping children obtain solutions for their problems. For example, vision and hearing tests assist in determining the degree to which a child may benefit from his school experiences. As child health is improved, other aspects of school endeavor are more successful. To learn effectively, children need good health.

Respectfully submitted,

FLORENCE MACIVER, R.N.
